

Milky Way pattern revision for cutting and piecing

© Kathryn Wilson Tucker

Monogram panel blocks because the panel may be less than 24" wide.

Next Step Quilt Designs

Use the main pattern instructions for cutting Stars, Borders and Binding

and Steps 13 to 31 for Star Blocks, Borders and Layer, Quilt, Bind, Label construction.

Fabric

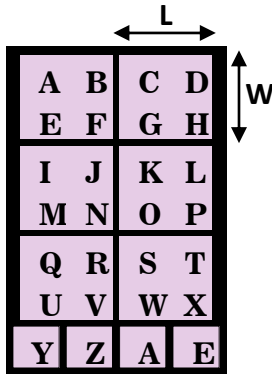

Cut # Strips

	Panel —DO NOT PRE SHRINK Monogram—Northcott	DO NOT CUT UNTIL STEP 1.
	Background —(PB)	Sashing 1—12" strip x WOF 1—16½" strip x WOF Outside Border DO NOT CUT UNTIL STEP 3.
	Fabric C —	Cornerstones DO NOT CUT UNTIL STEP 6.

Procedure:

MONOGRAM PANEL: This pattern was created for Northcott's Monogram panel. We have discovered that the Monogram panel may be less than 24" wide. The following Steps explain how to construct the large blocks with the four letters and the outside border with the single letters.

WOF = width of fabric

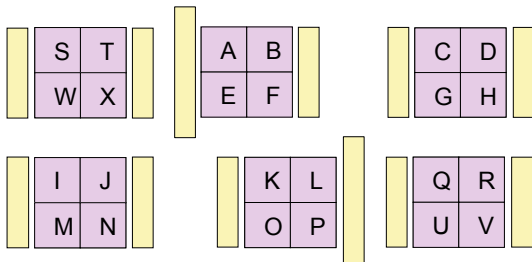

- Monogram Panel**—Block and press panel so that corners are 90° and panel is rectangular.
- Referring to the diagram on the left, carefully cut the panel into Six, as large as possible, rectangular or square blocks all the same size. **NOTE:** Length (L) and width (W) should be as close to 12" maximum as possible. The ¼" seam allowance is included in measurement.
Large block size _____ L x _____ W
Then cut the bottom row, letters Y Z A E, all the same square size including ¼" seam allowance.
Small square size _____ (outside border cornerstone)
- Outside Border:** Cut [7] Background **PB** strips the width of Step 2 Small square size _____ x WOF.

4. Calculate X Total

Unfinished block size	16.5"	16.5"
Subtract Step 2 Large block size	L _____	W _____
Sub total =	_____	_____
Divide by 2 =	_____	_____
Add	0.5	0.5
Total	X _____	Z _____

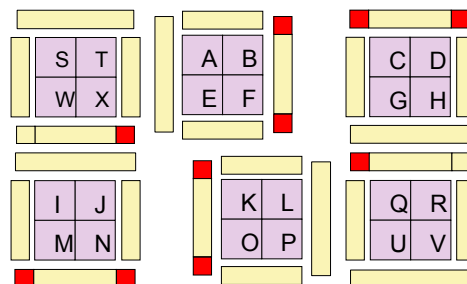

- From the 12" **PB** strip, cut [10] Step 4 **X Total** _____ x Step 2 Large block size **W** _____ rectangles. Then from the 16½" strip, cut [2] Step 4 **X Total** _____ x 16½" rectangles. Place along the sides of large blocks.

- Cut [1] Fabric **C** strip Step 4 **X Total** _____ wide.

7. Calculate Z Total in Step 4.

- From the 16½" **PB** strip, cut [4] Step 4 **Z Total** _____ x 16½" rectangles. Then from the remaining 12" and 16½" **PB** strip, cut [8] Step 4 **Z Total** _____ x Step 2 Large block size **L** _____ rectangles. If need be cut [1] **Z total** _____ wide strip to cut remaining rectangles.
- From remaining **PB** strips cut [2] **X Total** _____ x **Z Total** _____ units.
- Sub-cut Step 6 Fabric **C** strip into [10] **Z Total** _____ units.

- Place Step 8, 9 and 10 rectangles along the top and bottom of large blocks. Sew all rectangles to blocks. Press to **PB** rectangles. Should be 16½" square.
- GO TO STEP 13 - STAR BLOCKS in main pattern to complete the quilt..
